Optima Community Complete is a Coordinated Care Plan with a Medicare contract and a contract with the Virginia Medicaid Program. Enrollment in Optima Community Complete depends on contract renewal.

The pharmacy network and/or provider network may change at any time. You will receive notice when necessary.

Section 1 – Introduction

The first part of this directory provides a list of Optima Community Complete network providers. Network pharmacies are included in the second part of this directory. To get detailed information about your health care coverage, please see your Evidence of Coverage.

You will have to choose one of our network providers listed in this directory to be your **Primary Care Provider (PCP)**. Generally, you must get your health care services from your PCP. You need to choose your PCP from the list of family medicine, internal medicine, and geriatric medicine physicians in this directory.

Your PCP will serve as the team leader for all your health care needs. A member of your PCP's team will work with you to complete an initial health assessment so your PCP can develop a personalized care plan for you. This care plan may include routine health screenings, annual wellness exams, and other preventive care services.

When needed, your PCP, or other members of your primary care team, will coordinate care with the right specialists and hospitals – and work with them to keep you healthy and improve your quality of life. You will not be expected to navigate the system on your own – your primary care team will be your advocate and help you see the plan specialist or get the service you need, when and where you need it. This team-based and coordinated approach makes sure you receive the best possible care.

Although you do not need a referral from your PCP to go to a plan specialist, he/she will be able to recommend one to you. After you see the plan specialist, he/she normally sends a report to your PCP so your PCP knows about your medical care. If your PCP or plan specialist recommends that you have a procedure, test, or surgery that needs prior authorization from Optima Community Complete, he/she will contact us for authorization.

The network providers listed in this directory have agreed to provide you with your health care services. You may go to any of our network providers listed in this directory. If you want to change your PCP or specialist, you can. Please call us if you want to change your PCP or need help finding a new one. Our phone number is on the cover of this directory.

This directory includes our network hospitals where you can go for emergency care and post-stabilization care when you are in our service area. The service area can be found on the next page of this directory. You must use network providers except in emergency or urgent care situations or for out-of-area renal dialysis. If you obtain routine care from out-of-network providers, neither Medicare nor Optima Community Complete will be responsible for the costs. If you receive emergency, urgent care or dialysis services from a non-plan provider while out of the service area (our service area is on the next page), ask the provider to submit the bill to Optima Community Complete. If the non-network provider sends the bill to you, please send it to us. We will determine if you owe anything to the provider. Do not pay the bill until you receive a notice from us. If you already paid for the covered services, we will reimburse you for our

share of the cost. We will pay the provider for our share of the bill and will let you know if you owe anything. Our address is:
