

DataPoint Tips: Did You Know...

Configuring and Selecting a Landing Page

It's easy to configure and customize your landing page! Once you select a report and complete the setup, you will no longer see an alert that your landing page is still being configured.

Welcome, Datapoint Datapoint

Note! The landing page is still being configured for you. Please contact support for details or help.

How to Setup Your Landing Page

- Step 1: Choose a dashboard/organizational favorite report you would like as your main landing page.
